

ENNEAGRAM + PRAYER

Two
The Helper

Two - The Helper

NATURAL STRENGTHS

- Quick to tend to and make things right in their relationship with the Lord
- Naturally caring with a heart to pray for others
- Can read between the lines of what someone needs

OPPORTUNITIES FOR GROWTH

- Looking to God instead of people for love and acceptance
- Remembering that God doesn't "need" anything from you and you can just "be"
- Knowing that God can handle your emotions

ACTION STEPS

- 1.** Take time away from your normal places and people. It's difficult for two's to focus when their people are around—even when they're in the other room. Schedule an hour at a coffee shop or park every once in a while when you know it's not gonna be busy.
- 2.** Pray for yourself. If that feels funny, start by asking God questions like, "Lord, what do you want to grow in me? My family? My ministry?"
- 3.** Run your motives in what you're praying for others through this test: Are you praying out of submission to the Lord's will or pride in thinking your solution for your friend / family member is best?
